

# Marcin Koziński

Quality and Infrastructure  
Manager  
KEPS

▣ Started at Kimball Electronics in 2004

- Marcin resides in Poznań, Poland where he has lived for more than half his life. In his free time, Marcin enjoys spending time with his family - his wife Joanna and his children Weronika and Wiktor.
- Marcin came to work for Kimball Electronics during his last semester at Poznań University. For his first job he was looking for a company that had long tradition and well-developed experience in electronics manufacturing.
- The professional achievement Marcin is most proud of is that soon after he was promoted to Quality and Infrastructure Manager, he was also selected to be the Global Quality Council Chairperson. Through this, Marcin felt that he was empowered by his peers from the KEI facilities and that this demonstrated a sign of their trust in him to lead his team.
