

Bindumol L

Project Manager

▶ Started at GES in 2012

- Bindumol resides in Trivandrum, Kerala close to GES India-Technopark. She is a nature lover and enjoys gardening and listening to music during her time off.
- She is passionate about managing both People and Technology and she strongly believes that her leadership role has shaped her into a more responsible person. She continues to learn as she meets fresh minds and new perspectives. They have changed her outlook and made her more flexible to new and creative ideas.
- She feels GES India is where she belongs because of its welcoming environment and a sense of belonging, care, and support from everyone within the organization. Her favorite memory is the Onam Celebrations in the office, where everyone comes together with singing, dancing, playing games, and enjoying the king-size Sadhya (feast).
