

# Manu S Nair

Senior Lead Engineer

▶ Started at GES in 2012

- Manu resides in Trivandrum, Kerala India with his family and loves to watch movies, and play cricket with his friends.
- He strongly believes that he has a strong connection with GES India where he started his career. He stated: "GES India has given me many challenging opportunities, right from the beginning, I was fortunate enough to work closely with VP Operations in Japan & India on my first project. I had many opportunities to work directly with customers. These experiences only boosted my confidence and enhanced my leadership skills."
- Manu's journey with GES India has been delightful, challenging, and opportunity-driven. These experiences have strengthened his expertise in Industrial Automation. Some of his biggest achievements were winning the ENIGMA coding competition in 2018, working with FORTUNE 500 clients, and traveling across the globe as part of those assignments.
