

Genesis Madai Posada Rivera

Process Engineer III (Industrial
Engineering Lead)
Kimball Solutions Reynosa

▣ Started at Kimball Solutions in 2017

- Genesis lives in Reynosa, Tamaulipas, Mexico. Outside of work, Genesis enjoys reading books, practicing Pilates, and spending time at church. As a person of faith, much of Genesis's free time is dedicated to church activities and personal growth.
- The responsibility Genesis enjoys most is leading industrial engineering initiatives, especially facility layouts and line redesigns. She enjoys turning ideas into efficient manufacturing solutions and creating improvements that have a lasting impact on operations. Genesis is especially proud of the workflow and efficiency improvements implemented in the Regal Beloit area, which continue to add value today.
- Over the past nine years, Genesis has advanced from Process Technician II to Process Engineer III and now serves as Industrial Engineering Department Lead. She values Kimball Solutions' collaborative culture, where every idea is heard and teamwork helps employees feel like an important part of the solution.
