

## Doru Verdes

Business Manager, Industrial  
and Public Safety Solutions  
KERO

▣ Started at Kimball Electronics in 2016

○ Doru resides in Oradea, Romania, where he spends his free time with his family. He enjoys reading books, supporting the local basketball team, and following technology.

○ Doru came to work for Kimball Electronics because he is 100% aligned with the company's Guiding Principles and culture. He was very impressed by Kimball's executive team openness and "neat" structure, as in his previous company, the leadership was perceived as unreachable. Doru feels like "home" at Kimball Electronics, and he is most proud of growing a major customer from a single plant customer to a multi-plant customer.
