

THE PEOPLE WHO CREATE QUALITY FOR LIFE

ARTUR LUTY

ENGINEERING SUPPORT
AND DEVELOPMENT
MANAGER, POLAND

STARTED AT KIMBALL
ELECTRONICS IN 2002

MORE ABOUT ARTUR

Artur resides in Poznan, Poland where he spends his free time riding, repairing, and upgrading motorcycles.

Artur came to work for Kimball Electronics after one of his benchmark visits at the KEPS facility. He stated that after being offering to continue his "adventure in the SMT area", he accepted the position once he saw the impressive machine portfolio.

After taking a six year break for independent activities, Artur mentioned that when he came back to the company, he enjoyed seeing old friends, impressive factory and technology trends on the floor.
