

# Nguyen Huu Luy

Project Manager

▶ Started at Kimball Electronics in 2011

Louis lives with his wife and son in Ho Chi Minh City, Vietnam. When he's not spending time with his family you can find Louis reading books or taking street photography.

Kimball Electronics GES Vietnam enticed Louis because of the global reach and opportunity. One of his most proud moments was when he and his team had successfully designed, built, and installed 75 automation systems despite of technical challenges and materials constraints. The combination of GES' achievement helping with customer's success is why Louis is proud to be Creating Quality for Life.

"GES' strength is design to customer's requirements. This kind of technical challenge requires a broad and comprehensive collaboration from team members all over the world: This robust collaboration helps us the deliver the key products to customers within a very short period of time. This makes our team culture unique."
