

Samsheerali P. T.

Optical Engineer -
Automation Team

▣ Started at Kimball Electronics in 2021

- Samsheerali likes to spend quality time with his family and friends and enjoys reading and watching movies and television series. He is also a die-hard football (soccer) fan and ensures not to miss a single match.
- Samsheerali has a Doctorate in Optics and Photonics and 10+ years of experience. He found Kimball Electronics GES India to be a perfect platform to enhance his knowledge and expertise working with Machine Vision and Hardware. He believes it has great potential to be a leader in the field of Industrial Automation using advanced optics techniques.
- His favorite office tradition is the company's internal competition that takes place every month between the 4 teams formed for fun activities which made him nostalgic for his school days of the 4 houses (Red/Blue/Yellow/Green Houses) that competed in various games, tournaments, and sports.
