MORE ABOUT LIAO KAI

Liao Kai resides in the beautiful and friendly city of Suzhou with his wife and two children where he enjoys spending time with family.

He graduated from Hubei University of Technology with a major in mechatronics and holds an IPMP management certificate and an MEM from NPU. He has been engaged in automation equipment design and management for more than 12 years and has successfully led teams in completing a wide variety of automation equipment. Liao Kai stated, "I am passionate about the automation industry and turning conceptual design into well functioning machines."
