

IN THIS ISSUE:

MEDACCRED'S FIRST ACCREDITATIONS FOR PLASTICS INJECTION MOLDING

Kimball Medical Solutions'
ongoing commitment to quality -
MedAccred Printed Injection
Molding Accreditation

The Kimball Medical Solutions manufacturing facility in Indianapolis, IN has received MedAccred Printed Injection Molding Accreditation. The distinction is in recognition of the company's ongoing commitment to quality by satisfying customer requirements and industry specifications in the medical market. This designation, which identifies and verifies compliance to critical manufacturing process requirements, puts Kimball Medical Solutions in a group of injection molders that have been endorsed to serve the medical industry.

Kimball Medical Solutions continues to innovate advancing our processes by purchasing new Arburg Machines and best-in-class custom plastic injection molding applications. The MedAccred accreditation enables Kimball Medical Solutions to leverage its reputation of expertise, by interfacing directly with the industry leaders in medical device manufacturing.

MedAccred conducts critical-process audits for its member original equipment manufacturers (OEM) to ensure their suppliers adhere to global regulations and requirements. By covering audit needs for multiple OEMs, MedAccred also helps reduce the number of onsite audits for suppliers. MedAccred has prioritized reducing risk to patient safety. In an economy of swift development, the certification offers a standardized, consistent critical-process accreditation.

"This is a key accomplishment as we grow our medical business, and it couldn't have been achieved without the teamwork and support of our entire Indianapolis team. OEM medical device companies around the world are encouraging their key suppliers to pursue this accreditation. It's yet another example of our commitment to lasting relationships and global success."

- Lee Kemper, Vice President of DCMS North American Operations for Kimball Medical Solutions
